

Scott Woods, Principal
Urbana Middle School
1201 S. Vine St.
Urbana IL. 61801

Dear Mr. Woods

I think that we should have single-sex classes because then we won't get along with each other. People might start to spread rumors talk about each other. In the reading that I read in Ms. Ackerman's class with the agree part that we should have single-sex classes would be so students can go and concentrate. On the disagree side it says that students need to be with their opposite sex because of puberty. In my opinion I think that we should just keep our school how it is an/or we have our on team classes with single-sex and then with our electives we have it all together. But then again I think that we should have single-sex classes so we can concentrate better and get our work done and not make the teachers upset like we do now, so then the teachers don't have to go and lose their voice and yell at people for not following directions.

I actually believe that boys have no sense how to act like a gentleman, when boys are in middle school and high school they tend to show off a lot and teachers start to think that they are really distracted. With most of the time they are and sometimes they like to show off for that one special girl. In the reading it also says that teachers get so annoyed by how our students act and I agree with them, it states that sometimes teachers can't handle boys and girls in the same room because of how they act towards each other.

So I think that we should have single-sex classes but only for our on team for our electives I think we should have all of us together. But then I also think we should all have single-sex classes I think that if we have that then we would be able to wear our clothes that we choose to wear! And I would want that to happen I don't like the rules of our assignment planner...

Sincerely,

Haley C.
